FEATURES

Truly putting high design into recline, this sectional, with genuine leather seating area proves that just because you're a recliner doesn't mean you have to look like one. Deceptively beautiful, its ultra clean-lined aesthetic is as cool and contemporary as they come. Low-profile back has a super swank look. When you need more support for your head and neck, the press of a button engages the Easy View™ power adjustable headrest, designed to let you lean back and still have a primo view of the TV. To save space, the zero wall design requires minimal space between wall and chair back, plus indulgent pillow top seating gives an added layer of comfort.
